APPENDAGE NO. 1 (Item No. 6)

Lands owned by Louis Damonte upon which proposed supplemental irrigation water is to be used:

S $\frac{1}{2}$  Sec. 10; all of Sec. 15; W $\frac{1}{2}$  SW $\frac{1}{4}$  Sec. 14; S $\frac{1}{2}$  SW $\frac{1}{4}$ , NE $\frac{1}{4}$  SW $\frac{1}{4}$ , SW $\frac{1}{4}$  SE $\frac{1}{4}$ , S $\frac{1}{2}$  NW $\frac{1}{4}$  SE $\frac{1}{4}$ , Sec. 16; S $\frac{1}{2}$  SE $\frac{1}{4}$  Sec. 17; NE $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 20; the SW $\frac{1}{4}$ , the NW $\frac{1}{4}$ , the SE $\frac{1}{4}$  and the W $\frac{1}{2}$  NE $\frac{1}{4}$  Sec. 28; the N $\frac{1}{2}$  NW $\frac{1}{4}$  Sec. 27; all of Sec. 22; NW $\frac{1}{4}$  NW $\frac{1}{4}$  Sec. 23; and the NE $\frac{1}{4}$  Sec. 21; all in T. 18 N., R. 20 E., M.D.B.&M. Containing 2784 acres more or less.

APPENDAGE NO. 2 (Item No. 12)

The water applied for in this application is to be used upon the lands as shown on the accompanying map to supplement the present available supply.

At the present time an insufficient supply of water is obtained from Brown Creek, Steamboat Creek, Washoe Lake, and some drain and waste. These sources are so unreliable, and the flow so variable, that much of the land has ceased to be cultivated.

The water rights herein applied for being purchased by Mr. Damonte under an agreement, which is also enclosed, and is self explanatory. The ditch extension and other pertinent structures and their locations are shown tentatively as Mr. Damonte is not anxious to go to the extra expense until such time as he is assured of the approval of these transfers.

APPENDAGE NO. 3 (Item No. 13)

Water applied for herein is to be transferred from its present place of use and diverted through the Last Chance Ditch to the indicated proposed places of use. It will be necessary to construct an extension of the Last Chance Ditch as indicated approximately on the accompanying map. This extension will be about three miles in length and of sufficient size to carry about 12 c.f.s. Agreements are now being made between Louis Damonte and certain property holders who now receive water through the Steamboat Canal but who could also irrigate their lands through the Last Chance Ditch System whereby he will supply them their water through the Last Chance Ditch for an equal amount in the Steamboat Canal. In that event an extension will be constructed from the Steamboat Canal eastward across the Reno-Carson Highway and the V. & T. R. R. r/w to what is known as the Chandler Ditch. From this system in connection with the Last Chance Ditch extension it will enable the indicated lands to receive water.

APPENDAGE NO. 4 (Item No. 14)

It is estimated that the total cost of the works will be about \$35,500.00 which price includes the cost of the purchased water rights and ditches.
